Current performance may be lower or higher than quoted investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Performance data for the latest month end is available at <https://www.flexshares.com/us/en/individual/funds>. It is not possible to invest directly in an index.

FlexShares shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Total Returns are calculated using the daily 4:00 pm EST Net Asset Value.
